TRADEFLOW®

Trade Content Coverage

Export Control Classification

Tradeflow covers various jurisdictions for Export Control Number (ECN) classification content, also often known as Export Control Classification Numbers (ECCNs). Customers can reference the ECN content for classifying dual-use goods, where the end use is either for military or commercial purpose. Specific classification authority coverage includes:

- 18 individual national country authorities
- All European Union countries supported by the EU multinational authority (Note, some EU countries are instead listed by their specific national authority)
- A number of other countries within the Wassenaar Arragement, of which these countries are a member

Additional trade content for certain countries is also available as follows:
- Export Classification: United States (Schedule B)
- Munitions List: United States, Wassenaar (participating signatories)

For more information, contact your local Tradeflow® representative or visit us at: www.expeditors.com/customer-solutions/tradeflow/index.asp
